

Our Mission: To provide free peer-to-peer support and resources to cancer fighters, survivors, and caregivers so no one on Florida's Suncoast faces cancer alone.

Peer-to-Peer Mentoring Program

Team Tony's mission is to help those affected by cancer feel supported and understood. Our peer-to-peer mentoring program matches a trained volunteer cancer survivor with a recently diagnosed cancer patient or caregiver who is in need of support. Referred to as a Teammate, a Team Tony volunteer mentor is someone who can relate to the newly diagnosed cancer patient or caregiver. We match Teammates based on cancer diagnosis, age, gender, and other relevant factors. Team Tony Teammates offer support, knowledge, encouragement, and inspiration every step of the way.

Since 2016, we have matched nearly 700 cancer fighters and caregivers in the Tri-County area with Team Tony Teammates.

Medical Assistance Program

The Team Tony Cancer Foundation provides financial assistance to help alleviate the financial burden of a cancer diagnosis. This grant is allocated for expenses that have been incurred due to an individual's cancer diagnosis, up to a maximum of \$2,000 per applicant annually. In order to be eligible for a Team Tony medical grant, the applicant must be participating in the Shared Steps Through Cancer Mentoring Program.

Since 2016, we have provided over \$243,252 in Medical Assistance Grants to over 217 cancer fighters.

Cancer Connection Center

The Cancer Connection Center (C3) is a safe, warm, supportive and empowering environment to connect with others during a challenging time. Come as you are, create a survivor plan with your Teammate, hang out and read a book, sit by the relaxing water feature or attend an educational workshop. The Center's focus is about a sense of belonging. You are not alone! Feeling connected to others who have been through a similar experience is so important. C3 is also available to our cancer partner organizations for meetings, to participate in workshops, and to collaborate on projects.
